

Software Development Engineer (SDE) – Entry Level

 **Company: Razorpay**

 **Location: Bangalore, Karnataka, India**

 **Eligibility:**

- **Batch:** 2024 / 2025
- **Branches:** B.Tech/B.E./M.Tech in Computer Science, IT, or Software Engineering

 **Position Type: Full-time | Entry-Level**

 **Job Description:**

Razorpay is looking for energetic and smart problem solvers to join our engineering team. As an SDE, you will be building scalable payment and banking platforms that power thousands of businesses across India.

You will:

- Design, build, test, and maintain scalable microservices
 - Write clean, efficient, and testable code (Java, Python, Go preferred)
 - Participate in design reviews, code reviews, and agile ceremonies
 - Collaborate with Product Managers and Designers to deliver high-impact features
 - Solve real-time system issues with a focus on performance and scalability
-

 **Skills Required:**

- Strong knowledge of Data Structures, Algorithms, and Object-Oriented Programming
- Proficiency in at least one programming language: Java, Python, C++, or Go
- Familiarity with backend technologies and databases (MySQL, MongoDB)

- Good understanding of REST APIs and distributed systems

Salary:

- **Annual CTC:** ₹10 – ₹12 LPA
- **Stipend (if internship offered first):** ₹30,000 – ₹35,000 per month

Why Join Us?

At Razorpay, we foster a culture of innovation and ownership. You'll get to work on large-scale systems, collaborate with some of the best engineers, and make an impact from Day 1.
